UNITED STATES SECURITIES AND EXCHANGE COMMISSION Washington, D.C. 20549

FORM 10-Q

(Mark One)

☑ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2012

OR

□ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15 (d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to

Commission File Number 814-00175

BROADLEAF CAPITAL PARTNERS, INC. (Exact name of Registrant as specified in its charter)

Nevada (State or other jurisdiction of incorporation or organization)

3887 Pacific Street Las Vegas, Nevada (Address of principal executive offices) 88-0490034 (I.R.S. Employer Identification Number)

89121 (Zip Code)

(702) 650-3000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes 🖾 No 🗖

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes 🗵 No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer, "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer \Box Non-accelerated filer \boxtimes Accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes 🗆 No 🗵

As of October 26, 2012 the registrant had 167,097,874 shares of common stock outstanding.

NOTE 1 -COMPANY BACKGROUND

of Broadleaf Capital Partners, Inc., a Nevada company, (Broadleaf), and its The consolidated financial statements include those wholly owned subsidiaries, Peacock Real Estate Development Corporation (PREDC), Peacock International Corporation (PIC), DotCom Ventures, LLC (DotCom), Peacock Sports, Inc. (PSI), Broadleaf Asset Management (BAM), Broadleaf Financial Services (BFS), Silverleaf Venture Fund, LLC (SVF) and Brand Asset Management (Brand). The consolidated financial statements also include its majority-owned subsidiaries, Bay Area Soccer Development Corporation (Bay Area) (70%), Orange County Soccer Development Corporation (Orange) (70%), Riverside County Soccer (Riverside) (53%), Development Corporation and iNetPartners. Inc. (iNet) (51%). Collectively, they are referred to herein as "the Company".

PREDC, a wholly-owned subsidiary, was originally formed on July 29, 1993. On October 22, 1999, the name was changed from Peacock Financial Corporation (California) to Peacock Real Estate Development Corporation. PREDC has had no significant operations since inception.

PIC, a wholly-owned subsidiary, was formed on December 8, 1997. It has had no operations to date, but was formed to invest and trade in securities on an international basis.

DotCom was organized on July 23, 1999. Peacock acquired its initial 50% ownership with an initial investment of \$112,203. On January 5, 2000, the Company acquired the remaining 50% ownership by granting options to acquire a total of 500,000 restricted common shares of the Company at \$0.10 per share. DotCom was organized for the purposes of conducting an internet production company and to consult start-up and emerging growth companies with their internet strategies. DotCom had no operations since 2003.

PSI was incorporated in January 2000 to hold and manage investments in professional sports. During the years ended December 31, 2003, 2002, and 2001, PSI had no significant operations.

In January 2000, the Company acquired an 85% ownership interest for \$50,000 cash in Orange County Soccer Development Corporation (Orange). The investment was recorded as a purchase. Orange discontinued operations effective December 31, 2000.

In February 2000, the Company acquired an 85% ownership interest for \$100,000 cash in Bay Area Soccer Development Corporation (Bay Area). The investment was recorded as a purchase. Effective December 31, 2000, Bay Area discontinued its operations.

In February 2000, the Company acquired a 53% ownership interest in Riverside County Soccer Development Corporation (Riverside) for \$6,000. The investment was recorded as a purchase. Effective December 31, 2000, Riverside discontinued its operations.

Broadleaf holds a 51% interest in iNet as of December 31, 2001. iNet was organized under the laws of the State of California on December 15, 1999 with the intent to develop Internet e-commerce applications for both the new and used automotive markets. Effective December 31, 2000, iNet had no significant operations.

On May 23, 2002 Storage Suites America was formed as a wholly owned subsidiary to take advantage of the growing self storage trend. During 2002 it was decided Broadleaf could not provide the capital and management support needed by Storage Suites America to implement their business plan. During March 2003 the Storage Suites America entity was sold by Broadleaf.

Silverleaf Venture Fund, LLC was formed on July 29, 2003 as a wholly owned subsidiary. The company had a limited history and briefly acquired shares in small micro cap companies during 2003 and 2004. However, due the lack of liquidity and markets available willing to buy these investments, they were written down to zero market value based on management recommendations and has had no significant operations since 2004.

Broadleaf's remaining subsidiaries, BAM, BFS, and Brand, were all incorporated in 2001. These subsidiaries have had no operations to date, and management is currently evaluating its alternatives for these companies.

NOTE 1 - COMPANY BACKGROUND (Continued)

On September 15, 1998, the Company filed with the Securities and Exchange Commission to become a Business Development Corporation as defined under the Investment Act of 1940. Simultaneously, the Company registered an offering circular with the SEC for 13,000,000 shares of common stock under Regulation E of the Investment Act to raise capital and to make investments in real estate and in eligible portfolio companies. The Company participates in the formation of, and invests in, emerging or early-stage companies in various fields of business by arranging for and contributing capital and providing management assistance. During 2004 the Company had failed to comply with Business Development Company requirements while trying to maintain business operations and the Business Development License has been rescinded by the SEC.

From December 2000 through 2006 the Company did not have a permanent President but was run by interim President Robert A. Braner who was also Chairman of the Board during the same time. The Company has since hired a new interim President Michael King and restored its normal management structure.

In February 2012 the Company sold its holdings in Canyon Shadows LP. Since this was the Company's last investment holding it is currently actively seeking new business opportunities with the cash available after retiring older debt held by the Company. On May 12, 2012 the Company formed Pipeline Nutrition, Inc. with its focus on internet sales in the personal health, nutrition and fitness markets. The Company maintains a controlling 51% interest in the subsidiary with the remaining 49% ownership being held by subsidiary management.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation.

Broadleaf Capital Partners, Inc. (the Company) is a closed-end management investment company organized as a Nevada corporation. Although these types of company's should prepare their financial statements in conformity with accounting principles generally accepted in the United States of America, and are subject to audit as are other investment companies, the statement presentation of some companies may need to be tailored to present the information in a manner most meaningful to their particular group of investors. Since debt is a significant item, the Company concluded that a balance sheet would be more appropriate than a statement of net assets. Also, the Company believes Article 5 of Regulation S-X applies.

FASB Codification:

In June 2009, the FASB issued ASC 105, *Generally Accepted Accounting Principles*, ("Codification") effective for interim and annual reporting periods ending after September 15, 2009. This statement establishes the Codification as the source of authoritative accounting principles used in the preparation of financial statements in conformity with generally accepted accounting principles. The Codification does not replace or affect guidance issued by the SEC or its staff. As a result of the Codification, the references to authoritative accounting pronouncements included herein in this Annual Report now refer to the Codification topic section rather than a specific accounting rule as was past practice.

Principles of Consolidation:

The consolidated financial statements include those of Broadleaf Capital Partners, Inc., a Nevada corporation, and its wholly-owned subsidiaries, Peacock Real Estate Development Corporation (California) (PREDC), Peacock International Corporation (Bahamas) (PIC), DotCom Ventures, LLC (DotCom), Peacock Sports, Inc. (PSI), Silverleaf Venture Fund. LLC (SVF), Broadleaf Asset Management (BAM), Broadleaf Financial Services (BFS), and Brand Asset Management (Brand). They also include the majority owned subsidiaries, Bay Area Soccer Development Corporation (Bay Area) (80%), Orange County Soccer Development Corporation (Orange) (85%), Riverside County Soccer Development Corporation (Riverside) (53%), iNet Partners, Inc. (iNet) (51%) and Pipeline Nutrition, Inc. (pipeline) (51%). All significant intercompany accounts and transactions have been eliminated.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risk and Uncertainties:

Our future results of operations and financial condition will be impacted by the following factors, among others: our lack of capital resources, dependence on third-party management to operate the companies in which we invest and dependence on the successful development and marketing of any new products in new and existing markets. Generally, we are unable to predict the future status of these areas of risk and uncertainty. However, negative trends or conditions in these areas could have an adverse affect on our business.

Cash and Cash Equivalents:

For financial statement presentation purposes, short-term, highly liquid investments with original maturities of three months or less are considered to be cash equivalents. The Company maintains its cash accounts at all times at levels that do not exceed the insurable FDIC limit, but management believes that there is little risk of loss.

Accounts Receivable:

An allowance for uncollectible accounts receivable is established by charges to operations for amounts required to maintain an adequate allowance, in management's judgment, to cover anticipated losses from customer accounts and sales returns. Such accounts are charged to the allowance when collection appears doubtful. Any subsequent recoveries are credited to the allowance account.

Inventory:

Inventory includes purchased products for resale and is stated at the specific items cost or market value if lower. Provisions, when required, will be made to reduce excess and expired inventory to its estimated net realizable value. Inventory consists of the following:

	09/3	80/2012		12/31/2011
Raw Materials	\$	0	\$	0
Finished goods		67,829	_	0
Total inventory	\$	67,829	\$	0

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value of Financial Instruments:

In September 2006, the Financial Accounting Standards Board (FASB) introduced a framework for

measuring fair value and expanded required disclosure about fair value measurements of assets and liabilities. The Company adopted the

standard for those financial assets and liabilities as of the beginning of the 2008 fiscal year and the impact of adoption was not significant. FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" (ASC 820) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date ASC 820 also establishes a fair value hierarchy that distinguishes between (1) market participant assumptions developed based on market data obtained from independent sources (observable inputs) and (2) an entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The fair value hierarchy consists of three broad levels, which gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1-Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2—Inputs other than quoted prices included within Level 1 that are observable for the asset or liability; either directly or indirectly, including quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (e.g. interest rates); and inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3—Inputs that are both significant to the fair value measurement and unobservable.

The respective carrying value of certain on-balance-sheet financial instruments approximated their fair values due to the short-term nature of these instruments. These financial instruments include investments in available-for-sale securities and accounts payable and accrued expenses. The Company has also applied ASC 820 for all non-financial assets and liabilities measured at fair value on a non-recurring basis. The adoption of ASC 820 for non-financial assets and liabilities did not have a significant impact on the Company's financial statements.

Investments:

The Company's loans, net of participations and any unearned discount, are considered investments under the 1940 Act and are recorded at fair value. Since no ready market exists for these loans, the fair value is determined in good faith by the Board of Directors. In determining the fair value, the Company and Board of Directors consider factors such as the financial condition of the borrower, the adequacy of the collateral and individual credit risks.

Investments in equity securities are recorded at fair value, represented as cost, plus or minus unrealized appreciation or depreciation, respectively. The carrying values of investments that have no readily-determinable market values are determined by the Board of Directors, based upon its analysis of the assets and revenues of the underlying invested companies.

Because of the inherent uncertainty of valuations, the Board of Directors' estimates of the values of the investments may differ significantly from the values that would have been used had a ready market for the investments existed and the differences could be material.

Comprehensive Income:

ASC Topic 220 (SFAS No. 130) establishes standards for reporting comprehensive income and its components. Comprehensive income is defined as the change in equity during a period from transactions and other events from non-owner sources. Per the consolidated financial statements, the Company has purchased available-for-sale securities that are subject to this reporting.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Other-Than-Temporary Impairment:

All of our non-marketable and other investments are subject to a periodic impairment review. Investments are considered to be impaired when a decline in fair value is judged to be other-than-temporary. The indicators that we use to identify those events and circumstances include:

- the investee's revenue and earnings trends relative to predefined milestones and overall business prospects;
- When events or changes in circumstances indicate that long-lived assets other than goodwill may be impaired, an evaluation is performed to determine if a writedown to fair value is required. When an asset is classified as held for sale, the asset's book value is evaluated and adjusted to the lower of its carrying amount or fair
- value less cost to sell. In addition, depreciation and amortization ceases while it is classified as held for sale.
- the general market conditions in the investee's industry or geographic area, including regulatory or economic changes;
 factors related to the investee's ability to remain in business, such as the investee's liquidity, debt ratios, and the rate at which the investee is using its cash; and
- the investee's receipt of additional funding at a lower valuation. If an investee obtains additional funding at a valuation lower than our carrying amount or a new
- round of equity funding is required for the investee to remain in business, and the new round of equity does not appear imminent, it is presumed that the investment is other than temporarily impaired, unless specific facts and circumstances indicate otherwise.

Recently Issued Accounting Pronouncements:

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures* ("ASU 2010-06"). This standard updates FASB ASC 820, *Fair Value Measurements* ("ASC 820"). ASU 2010-06 requires additional disclosures about fair value measurements including transfers in and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances, and settlements relating to Level 3

measurements. It also clarifies existing fair value disclosures about the level of desegregations and about inputs and valuation techniques used to measure fair value. The standard is effective for interim and annual reporting periods beginning after December 15, 2009 except for the disclosures about purchases, sales, issuances and settlements which is effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. The Company adopted ASU 2010-06 on January 1, 2010, which had no material impact on the financial statements. Other recent accounting pronouncements issued by the FASB (including its EITF), the AICPA, and the SEC did not or are not believed by management to have a material impact on the Company's present or future financial statements.

On March 5, 2010, the FASB issued ASU No. 2010-11 Derivatives and Hedging Topic 815 "Scope Exception Related to Embedded Credit Derivatives." This ASU clarifies the guidance within the derivative literature that exempts certain credit related features from analysis as potential embedded derivatives requiring separate accounting. The ASU specifies that an embedded credit derivative feature related to the transfer of credit risk that is only in the form of subordination of one financial instrument to another is not subject to bifurcation from a host contract under ASC 815-15-25, "*Derivatives and Hedging — Embedded Derivatives — Recognition.*" All other embedded credit derivative features should be analyzed to determine whether their economic characteristics and risks are "clearly and closely related" to the economic characteristics and risks of the host contract and whether bifurcation is required. The ASU became effective for the Company on July 1, 2010. The adoption of this ASU did not have an impact on the Company's consolidated financial statements.

In May 2011, the FASB issued ASU 2011-04 which was issued to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and IFRS. ASU 2011-04 changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for the Company beginning on January 1, 2012. The adoption of ASU 2011-04 is not expected to significantly impact the Company's consolidated financial statements.

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2011-05, *Presentation of Comprehensive Income*. ASU 2011-05 revises the manner in which entities present comprehensive income in their financial statements. The new guidance removes the presentation options in Accounting Standards Codification (ASC) 220, *Comprehensive Income*, and requires

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

entities to report components of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. The ASU does not change the items that must be reported in other comprehensive income. In December 2011, the FASB issued ASU 2011-12 which defers the requirement in ASU 2011-05 that companies present reclassification adjustments for each component of accumulated other comprehensive income in both net income and other comprehensive income on the face of the financial statements. ASU 2011-05 is effective for fiscal years and interim reporting periods within those years beginning after December 15, 2011, with early adoption permitted. The adoption of ASU 2011-05, as amended by ASU 2011-12, is not expected to significantly impact the Company's consolidated financial statements.

Revenue and Cost Recognition:

The Company applies paragraph 605-10-S99-1 of the FASB Accounting Standards Codification for revenue recognition. The Company recognizes revenue when it is realized or realizable and earned when all of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the product has been shipped or the services have been rendered to the customer, (iii) the sales price is fixed or determinable, and (iv) collectability is reasonably assured. The Company also receives shares in certain companies for providing capital and investment services. Therefore when this type of income is recognized, the Company records it as management consulting income based on the fair value of the shares received.

Fixed Assets:

Fixed assets are recorded at cost. Major additions and improvement are capitalized. The cost and related accumulated depreciation of equipment retired or sold are removed from the accounts and any differences between the undepreciated amount and the proceeds from the sale are recorded as gain or loss on sale of assets. Depreciation is computed using the straight-line method over the estimated useful life of the assets as follows:

Description Estimated Useful Life

Furniture and fixtures	5 to 7 years
Computers and software	5 years
Automobiles	5 years

Most of the fixed assets of the company have been retired during the 2005 fiscal year and, the related costs and accumulated depreciation have been removed from the accounts and any gain or loss was recognized during that period.

Reclassifications:

Certain reclassifications have been made to prior year balances to conform to the current year presentation.

Net Income (Loss) Per Share:

In addition to Net Asset Values the Company reports basic and diluted earnings per share (EPS) according to the provisions of ASC Topic 260, which requires the presentation of basic EPS and, for companies with complex capital structures, diluted EPS. Basic EPS excludes dilution and is computed by dividing net income (loss) available to common stockholders by the weighted average number of common shares outstanding during the period. Diluted EPS is computed by dividing net income (loss) available to common stockholders, adjusted by other changes in income or loss that would result from the assumed conversion of those potential common shares, by the weighted number of common shares and common share equivalents (unless their effect is antidilutive) outstanding. Common stock equivalents are not included in the computation of diluted earnings per share when the Company reports a loss because to do so would be antidilutive. Thus, these equivalents are not included in the calculation of diluted loss per share, resulting in basic and diluted loss per share being equal. The following is a reconciliation of the computation for basic and diluted EPS for the nine months ended September 30, 2012 and September 30, 2012 and September 30, 2012 and September 30, 2012 and September 30, 2012.

Income Taxes:

The Company, a C-corporation, accounts for income taxes under ASC Topic 740 (SFAS No. 109) Under this method, deferred tax assets and liabilities are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized.

The Company adopted the provisions of FASB ASC 740-10 "Uncertainty in Income Taxes" (ASC 740-10), on January 1, 2007. The Company has not recognized a liability as a result of the implementation of ASC 740-10. A reconciliation of the beginning and ending amount of unrecognized tax benefits has not been provided since there is no unrecognized benefit since the date of adoption. The Company has not recognized interest expense or penalties as a result of the implementation of ASC 740-10. If there were an unrecognized tax benefit, the Company would recognize interest accrued related to unrecognized tax benefits in interest expense and penalties in operating expenses.

Currently the Company has projected \$14,401,359 as of December 31, 2011 in Net Loss Operating Loss carryforwards available. The benefits of the potential tax savings will be recognized in the financial statements upon the acquisition or development of revenue source to apply against these losses. The company recognizes that the Internal Revenue Service has the final determination of the NOL available going forward and that amount may be significantly different from that recorded to date.

The net operating loss carry forwards for federal income tax purposes will expire between 2012 and 2019. Generally, these can be carried forward and applied against future taxable income at the tax rate applicable at that time. We are currently using a 35% effective tax rate for

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

our projected available net operating loss carryforward. However, as a result of potential stock offerings and stock issuance in connection with potential acquisitions, as well as the possibility of the Company not realizing it's business plan objectives and having future taxable income to offset, the Company's use of these NOLs may be limited under the provisions of Section 382 of the Internal Revenue Code of 1986, as amended. The Company is in the process of evaluating the implications of Section 382 on its ability to utilize some or all of its NOLs.

Components of Net Operating Loss and Valuation allowance are as follows:

Net deferred tax assets consist of the following components as of

	9/30/2012	9/30/2011
Deferred tax assets:		
Beginning NOL Carryover	14,401,359	14,334,050
Adjusted Taxable Income(loss)	920,666	(43,133)
Valuation allowance	0	0
Ending NOL Carryover	13,480,693	14,377,183
Tax Benefit Carryforward	4,583,436	5,032,014
Valuation allowance	(4,583,436)	(5,032,014)
Net deferred tax asset	0	0
Net Valuation Allowance	(4,583,436)	(5,032,014)

In accordance with FASB ASC 740 "Income Taxes", valuation allowances are provided against deferred tax assets, if based on the weight of available evidence, some or all of the deferred tax assets may or will not be realized. The Company has evaluated its ability to realize some or all of the deferred tax assets on its balance sheet and has established a valuation allowance in the amount of \$4,583,436 at September 30, 2012 and estimated changes to the valuation allowance by the projected profit of loss for each period included in these financial statements in the table above. The allowance is calculated for each period as equal to the full potential tax benefits of the any NOL tax carryforwards.

NOTE 3 - GOING CONCERN

As reported in the consolidated financial statements, the Company has accumulated deficits of \$14,194,198 as September 30, 2012. The Company also has certain debts that have been in default during these periods although the creditors have not pursued collection proceedings. The Company's stockholders' equity at June 30, 2012 was \$82,407, and its current assets exceeded its current liabilities by only \$82,407 on June 30, 2012. These negative trends have been consistent right up through the most current fiscal year, except for this quarter and the sale of their only major investment, respectively.

NOTE 3 - GOING CONCERN (Continued)

These factors create uncertainty about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable and to create operations that contribute capital from normal operations. If the Company is unable to obtain adequate capital it could be forced to cease operations.

In order to continue as a going concern, develop and generate revenues and achieve a profitable level of operations, the Company will need, among other things, additional capital resources. Management's plans to obtain such resources for the Company include (1) raising additional capital through sales of common stock, (2) converting promissory notes into common stock and (3) entering into acquisition agreements with profitable entities with significant operations. In addition, management is continually seeking to streamline its operations and expand the business through a variety of industries, including real estate and financial management. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 4 - INVESTMENTS IN LIMITED PARTNERSHIPS

During 1995, the Company received a \$975,000 loan that converted to a grant from the City of Riverside to acquire and rehabilitate a 120-unit apartment complex (see Note 9). During April 1996, the Company was awarded \$2,400,000 in Federal tax credits relating to this project. During December 1996, the Company sold the completed project to a tax credit partnership named Canyon Shadows, L.P., retaining a 1% interest as general partner, and receiving a \$905,000 capital account in the partnership. During 1999, a \$70,000 note held by the Company was transferred to Canyon Shadows, L.P., which was recorded as a capital distribution to the Company (see Note 9). Additional costs were incurred by the Company on behalf of the partnership resulting in a total investment in Canyon Shadows, L.P. of \$1,131,961 at December 31, 2000. The Company's Board of Directors determined that the value of this investment approximated the current interest in the partnership. The valuation was based upon projected future occupancy of the apartment unit. In 2002, Canyon Shadows distributed \$101,422 to the Company, leaving a balance of \$937,424 at December 31, 2002. During the year ended December 31, 2003, Canyon Shadows distributed an additional \$134,176 to the Company, while the Company invested an additional \$12,734 into the Investment.

On May 26, 2003 the Company entered into a Memorandum of Understanding with an individual whereby the Company is to organize a subsidiary and sell a 21% interest in the subsidiary to the individual for \$200,000. Immediately thereafter, the Company would transfer the control of the Canyon Shadows LP to the new subsidiary. Thereafter, the individual is to be entitled to 21% of the quarterly distributions from Canyon Shadows LP or \$5,000 whichever is greater. As of December 31, 2004, the individual had their investment reclassified as a note payable secured against the property with the same income provisions. The Company has been accruing payments to the individual totaling 21% of the Company's monthly distribution from the Canyon Shadows investment. As of February 2012 the Company sold its only major asset Canyon Shadows Limited Partnership creating a small amount of cash reserves and eliminating most of its outstanding liabilities.

NOTE 5 - FIXED ASSETS

Fixed assets consist of the following:

For the Periods Ended,	9/30)/2012	12/31/2011
Furniture and fixtures	\$	0	\$ 0
Computers and software		3,500	3,500
Other equipment		400	400
		3,900	3,900
Accumulated depreciation		3,900	3,900
Current depreciation expense		0	0
		3,900	3,900
Net fixed assets	\$	0	\$ 0

Most Fixed Assets were retired during the reduction of operations in 2005

NOTE 6 - RELATED PARTY TRANSACTIONS

The Company occasionally pays for operating expenses of the partnerships and is reimbursed as funds become available to the partnerships on rare occasions and none this quarter. The Company received a \$30,000 loan from director Donna Steward in 2004 as stated in note 7 which was repaid in February 2012 upon sale of Canyon Shadows LP. Additionally, the Company uses 500 square feet of office space from its Interim President rent free. There are no commitments attached to this space. The Company currently has a secured loan of \$125,000 for working capital with its subsidiary Pipeline which was eliminated during the intercompany consolidation.

NOTE 7 – NOTES PAYABLE

Notes payable consist of the following for the periods ended;	9/30/2012	12/31/2011
Peacock Settlement Note of 2008 resettled three existing notes as stated on November 26, 2008 with a simple interest rate with a simple interest rate of 3% per annum. Note holder has right on 30 days written notice to demand stock totaling no more than 9.9% of total outstanding shares current and not allowing cumulative total to exceed 30% adjusting with new issuanced for dilutive purposes.		\$ 357,430
Debentures at 10%, unsecured, were to be convertible into common shares at the option of the holder, all debentures are currently in default.	10,383	10,383

The aggregate principal maturities of notes payable are as follows: All are classified as short term by the Company. During these periods, the Company was in default on two notes payable. The note holders have not taken any legal action against the Company as permitted by the agreements. Accrued interest on these notes totaled:	\$ 15,910	\$ 212.040
Accrued interest on these notes totaled:	<u>\$ 15,910</u>	s 212,949
18		

NOTE 8 - COMMITMENTS AND CONTINGENCIES

a. General Partner Obligations

The Company had served as general partner in several real estate development partnerships until 2005 when they reduced their position to one partnership (Canyon Shadows) of which they became a limited partner during the 2005 refinance of the project. The Company may no longer be held liable for certain liabilities, as this obligation was terminated with the sale of Canyon Shadows LP in February 2012.

b. Stock Escrow and Security Agreement

In 2004 and 2005, the Company entered into a Stock Escrow and Security Agreement with Angus Holdings, LLC ("Angus") and Douglas Morgan whereby the Company borrowed funds under the terms of a convertible promissory note. Angus has recently confirmed that they have no balance due from the Company and the entire balance has been recaptured as debt forgiveness in the current quarter. The Company still has \$10,383 outstanding on its books as of June 30, 2012. Although the Company has not had request to convert these loans in many years and feels the statute of limitations has passed, they have kept reserve liabilities open in the event some settlement is eventually reached. Currently, there is no stock being held in escrow.

c. Litigation

At March 31, 2012, the Company paid in full a judgment dating back to 2002, when a former employee received a legal judgment against the Company totaling \$20,110. At December 31, 2003, this liability is recorded at the settled amount plus accrued interest imputed at 8% annually for a total liability of \$23,021. This amount was adjusted for another judgment which was then being recorded as accounts payable of December 31, 2004. During 2007, there was a partial payment of the settlement, and the combined balance of \$39,372 was settled during the quarter ending March 31, 2012, eliminating the liability on the Company's books.

NOTE 9 -INVESTMENTS AND INVESTMENT VALUATION

On September 15, 1998, the Company filed with the Securities and Exchange Commission to become a Business Development Corporation (BDC) as defined under the Investment Act of 1940 in order to invest in real estate and eligible portfolio companies. This resulted in the Company becoming a specialized type of Investment Company. Due to the administrative burdens the Company rescinded its Business Development license during 2005 and for comparative purposes all information presented here including the year ended December 31, 2010 and December 31, 2009 is presented as an Investment company and not a BDC. adopted in 2008 FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" (ASC 820) for valuation purposes. Previously, as required by ASR 118, the investment committee of the company is required to assign a fair value to all investments. To comply with Section 2(a)(41) of the Investment Company Act and Rule 2a-4 under the Investment Quotations are not readily available have been considered and to determine the method of arriving at the fair value of each such security. To the extent considered necessary, when determining fair value, the Company will consider whether factors exist that indicate a significant decrease in the volume and level of activity for an asset or liability by comparing those levels to normal levels of market activity. Those factors may include, but are not limited to whether:

• There are few recent transactions.

• Price quotations are not based on current information.

• Price quotations vary substantially either over time or among market makers (for example, some brokered markets).

NOTE 9 - INVESTMENTS AND INVESTMENT VALUATION (Continued)

• Indexes that previously were highly correlated with the fair values of the asset or liability are demonstrably uncorrelated with recent indications of fair value for that asset or liability.

• There is a significant increase in implied liquidity risk premiums, yields, or performance indicators (such as delinquency rates or loss

severities) for observed transactions or quoted prices when compared with the reporting fund's estimate of expected cash flows, considering all available market data about credit and other nonperformance risk for the asset or liability.

• There is a wide bid-ask spread or significant increase in the bid-ask spread.

• There is a significant decline or absence of a market for new issuances (that is, a primary market) for the asset or liability or similar assets or liabilities.

• Little information is released publicly (for example, a principal to- principal market).

Significant judgment may be required from time to time to determine whether there has been a significant decrease in the volume and level of activity for the asset or liability based on the weight of the evidence. When the market has become less active or is no longer active, there is an increased likelihood of distressed or forced transactions underlying market transactions. Therefore, quoted prices become less reliable indicators of fair value. In circumstances where there has been a significant decrease in the volume and level of activity for an asset or a

liability in relation to normal market activity, additional steps should be taken by the Company to determine whether other valuation techniques and inputs are needed to meet the objective of a fair value measurement. However, in many cases, our availability of relevant

observable inputs to determine the fair value of a liability may be limited or unavailable. In such cases the Company will employ any valuation method which provides a suitable market value as determined by the Company which may include;

a. Cost - The cost method is based on the original cost to the Company, adjusted for amortization of original issue discounts and accrued interest for certain capitalized expenditures of the corporation. Such method is to be applied in the early stages of an investee's development until significant positive or adverse events subsequent to the date of the original investment require a change to another method.

b. Private market - The private market method uses actual or proposed third party transactions in the investee's securities as a basis for valuation, utilizing actual firm offers as well as historical transactions, provided that any offer used is seriously considered and well documented by the investee.

b. Appraisal - The appraisal method is used to value an investment position after analysis of the best available outside information where there is no established public or private market method which have restrictions as to their resale as denoted in the schedule of investments are also considered to be restricted securities.

The Company currently is no longer holding any investments at September 30, 2012.

NOTE 10 – FINANCIAL HIGHLIGHTS

The following schedule presents financial highlights for a share of the Fund outstanding throughout the periods indicated.

	9/30/2012	9/30/2011

PART I

ITEM 2. DESCRIPTION OF BUSINESS

OVERVIEW

Broadleaf Capital Partners, Inc., a Nevada corporation (the Company), incorporated February 1984, has continued with its restructuring and plans expansion through the ongoing development of its available operations, and other business opportunities. The Company is a publicly traded diversified investment holding company that is currently looking for new opportunities to fund it's operations into the future.

BUSINESS STRATEGY

The Company continually seeks and evaluates investment opportunities that have the potential of earning reasonable returns. The Company has in the past, and may again in the future, raise capital specifically for the purpose of permitting it to make an investment that the company believes is attractive. Management has committed resources for the update of all financial reporting with the SEC. The services of Corporate Strategy Consultants have been retained as well, to aid the Board in development and implementation of growth prospects The Company's current investment focus is centered on real estate and finance and it has substantial net operating losses to possibly reduce the net tax effects of these potential investments. This is all with the aim of conservative growth during slow economic times - through slightly-levered transactions built on a strong equity base — to significantly improve sales and operating profits.

The Company continues to look to create shareholder value through joint-ventures with for one or more members of the Private Equity or Venture Capital Communities or a Merchant Bank. in the creation of liquid exit strategies for one or more of their portfolio interests. Identifying and developing each new business opportunity may require the Company to dedicate certain amounts of financial resources, management attention, and personnel, with no assurance that these expenditures will be recouped. Similarly, the selection of companies and the determination of whether a company offers a viable business plan, an acceptable likelihood of success, and future profitability involves inherent risk and uncertainty.

INVESTMENT HISTORY

Canyon Shadows Apartments

The Company acquired a 120-unit apartment complex in April 1995 for \$875,000. The Company received a \$975,000 loan that converted to a grant from the City of Riverside for the purpose of acquisition and rehabilitation and, in 1996, the Company was awarded \$2,200,000 in Federal Tax Credits for the project. In December 1996, the project was sold to a tax credit partnership in which the Company retained a \$905,000 capital account, as well as a 1% interest as a general partner for which it is entitled to receive a management fee and 75.9% of the project cash flow. During 2005 during a refinancing of the project the Company received distributions used to reduce debts and changed its interest from developer general partner to limited partner reducing both income and liability exposure. During February 2012 the Company sold this investment and retired a substantial portion of debt that been carried since 2004.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following is a discussion of certain factors affecting Registrant's results of operations, liquidity and capital resources. You should read the following discussion and analysis in conjunction with the Registrant's consolidated financial statements and related notes that are included herein under Item 7 below.

CAUTIONARY STATEMENTS FOR PURPOSES OF THE SAFE HARBOR PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995.

The statements contained in the section captioned Management's Discussion and Analysis of Financial Condition and Results of Operations which are historical are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent the Registrant's present expectations or beliefs concerning future events. The Registrant cautions that such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Registrant to be materially different from any future results, performance or achievements such factors include, among other things, the uncertainty as to the Registrant's future profitability; the uncertainty as to the demand for Registrant's services; increasing competition in the markets that Registrant conducts business; the Registrant's ability to hire, train and retain sufficient qualified personnel; the Registrant's ability to obtain financing on acceptable terms to finance its growth strategy; and the Registrant's ability to develop and implement operational and financial systems to manage its growth.

The following discussion and analysis should be read in conjunction with the audited financial statements and notes thereto appearing elsewhere in this annual report on Form 10-Q.

Results of Operations

The Company intends to operate its business primarily through its parent company, as described above, as well as entities that may be formed or acquired in the future.

			For the nine n 9/30/2012	nonths ended 9/30/2011	For the three 1 9/30/2012	months ended 9/30/2011

1) Cost of product sold through it's start up subsidiary Pipeline Nutritian

2) Salaries, Wages & Personnel Costs are for the principal executive officers as noted above.

3) Professional Fees include bookkeeping, accounting, auditing and legal fees incurred in conjunction with the Company's public filings processes as well for occasional external help with day-to-day operations, as the Company has not hired its permanent accounting or legal staff. Additional Consulting fees on reviewing potential merger candidates.

4) All Other expenses include travel, entertainment, supplies, postage and other General & Administrative expenses incurred in the day to day operations of the Company.

5) Settlement of old liabilities dating back to 2004.

6) Realized gain on sale of Canyon Shadows limited partnership.

Results of Operations 2012-2011

Analysis of the nine months ended September 30, 2012 and 2011.

Revenues

For the nine months ended September 30, 2012, revenues were approximately \$21,600 compared to \$25,715 for the nine months ended September 30, 2011, decreasing by \$4,115. During this time investment income stopped as a result of the sale of the Canyon Shadows investment and the Company started recording sales from is subsidiary Pipeline Nutrition, Inc. which was \$20,696 of the total revenues in 2012. There were no Pipeline Nutrition, Inc. revenues in 2011.

Cost of Goods Sold

Cost of goods sold increased to \$17,317 for the nine months ended September 30, 2012 from \$0 for the nine months ended September 30, 2011, an increase of \$17,317. This is solely the result of the start up subsidiary Pipeline Nutrition, Inc. and the cost associated with its products. Cost of goods sold were 83% of total net sales. There were no costs of goods sold during 2011.

G & A Expenses

G&A expense increased to \$140,770 for the nine months ended September 30, 2012 from \$39,933 for the nine months ended September 30, 2011, an increase of \$100,837. The increases in G&A were caused by heavy start up expenses for the start up subsidiary Pipeline Nutrition, Inc. which totaled \$46,749 in 2012 and were zero in 2011. Additionally the company recorded increased professional fees of \$88,285 from due diligence cost associated with reviewing potential investments during the period. The remainder of the expenses was all considered normal small business operating expenses associated with operations.

Other income and expenses

Other items increased to a net income of \$1,057,153 for the nine months ended September 30, 2012 from a net expense of \$28,915 for the nine months ended September 30, 2011, resulting in a total net item increase of \$1,086,068. The gain on the sale of the Canyon Shadows investment was \$927,318 and there were liabilities settled creating additional debt forgiveness income of \$138,304. Interest expense also decreased during the period in 2012 to \$8,469 from \$28,932 for the nine months ended September 30. 2011. This was due to pay down of debt with the proceeds from the sale of the Canyon Shadows investment.

Net income (loss)

Net Income increased to \$920,666 for the nine months ended September 30, 2012 from a net loss of \$43,133 for the nine months ended September 30, 2011, an increase of \$963,799. The increase was mostly related to a realized gain on investment and debt forgiveness income noted above. The increased consulting in G&A expense and the Pipeline Nutrition subsidiary G&A were the only significant expense increases offsetting the additional income summarizes in net income for this period.

Analysis of the three months ended September 30, 2012 and 2011.

Revenues

For the three months ended September 30, 2012, revenues were approximately \$13,146 compared to \$21,917 for the three months ended September 30, 2011, decreasing by a net of \$8.771 as the result of the loss of income from the sale of our only income producing asset in February 2012 and the Company started recording sales from is subsidiary Pipeline Nutrition, Inc. which accounted for all of the total revenues in the third quarter of 2012. There were no Pipeline Nutrition, Inc. revenues in 2011.

Cost of Goods Sold

Cost of goods sold increased to \$12,712 for the three months ended September 30, 2012 from \$0 for the three months ended September 30, 2011, an increase of \$12,712. This is solely the result of the start up subsidiary Pipeline Nutrition, Inc. and the cost associated with its products. Cost of goods sold were 83% of total net sales. There were no costs of goods sold during 2011.

G & A Expenses

G&A expense increased from \$35,353 for the three months ended September 30, 2012 from \$10,828 for the three months ended September 30, 2011, an increase of \$24,525. The majority of increases in G&A in this quarter were caused the start up subsidiary Pipeline Nutrition, Inc. as it continued to increase its operations, which totaled \$26,657 in 2012 and were zero in 2011.

Other income and expenses

Other items increased to a net expense of \$1,301 for the three months ended September 30, 2012 from a net expense of \$9,644 for the three months ended September 30, 2011, resulting in an expense decrease of \$8,343. This change was caused by a small decrease in interest expense as our debt reduction continues.

Net income (loss)

Net loss increased to \$36,220 for the three months ended September 30, 2012 from a net income of \$1,445 for the three months ended September 30, 2011, an increase of \$37,665. The increase was mostly related to the G&A expense increases noted above associated with Pipeline Nutrition.

Liquidity and Capital Resources

On September 30, 2012 we had cash and cash equivalents totaling \$144,506. At this time, those balances were not sufficient to fund our operations for extended periods into the future.

The Company was continually restructured during the 2004 through 2011 time period. We anticipate seeking additional opportunities through potential acquisitions or investments. One such investment is our new start up subsidiary Pipeline Nutrition, Inc. started May 12, 2012 which has not yet generated a positive cash flow, but has already generated sales. This and other such acquisitions or investments may consume cash reserves or require additional cash or equity. Our working capital and additional funding requirements will depend upon numerous factors to be determined on a case by case basis as these opportunities arise.

Critical Accounting Policies and Estimates

Our significant accounting policies are more fully described in Note 2 to our consolidated financial statements. In preparing our financial statements in accordance with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that, among other things, affect the reported amounts of assets and liabilities and reported amounts of revenues and expenses. These estimates are most significant in connection with our critical accounting policies, namely those of our accounting policies that are most important to the portrayal of our financial condition and results and require management's most difficult, subjective or complex judgments. These judgments often result from the need to make estimates about the effects of matters that are inherently uncertain. Actual results may differ from those estimates under different assumptions or conditions. We believe that the following represents our critical accounting policies:

• Going concern. Our recurring losses from operations and negative cash flows from operations raise substantial doubt about our ability to continue as a going concern and as a result, our independent registered public accounting firm included an explanatory paragraph in their report on our consolidated financial statements for the year ended December 31, 2011 with respect to this uncertainty. We have prepared our financial statements on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts of liabilities that might be necessary should we be unable to continue in existence.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our carrying values of cash, marketable securities, accounts payable, accrued expenses and debt are a reasonable approximation of their fair value. The estimated fair values of financial instruments have been determined by us using available market information and appropriate valuation methodologies. We have not entered into and do not expect to enter into, financial instruments for trading or hedging purposes. We do not currently anticipate entering into interest rate swaps and/or similar instruments.

Our primary market risk exposure with regard to financial instruments is to changes in interest rates, which would impact interest income earned on such instruments. We have no material currency exchange or interest rate risk exposure as of June 30, 2012. Therefore, there will be no ongoing exposure to a potential material adverse effect on our business, financial condition or results of operation for sensitivity to changes in interest rates or to changes in currency exchange rates.

ITEM 4 CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

The Company's management, consisting of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of September 30, 2012. Based upon this evaluation, the Interim President and Chief Financial Officer concluded that, as of September 30, 2012, the Company's disclosure controls and procedures were not effective in providing reasonable assurance that information required to be disclosed in the reports that the Company files or submits under the Exchange Act, are timely recorded, processed, summarized and reported as required by the Exchange Act.

Management's Annual Report on Internal Control over Financial Reporting

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rue 13a-15(f) under the Exchange Act). Internal control over financial reporting is a process, including policies and procedures, designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles. Based on the results of this assessment, management concluded that the Company's internal control over financial reporting was ineffective as of September 30, 2012, based on such criteria.

Management did not use a formal framework to conduct the required evaluation of the effectiveness of the Company's disclosure controls and procedures or the Company's internal control over financial reporting since, in the view of management, comparison with a formal framework was unwarranted because of (1) the small size of the Company's current operations and (2) the Company's executive management structure (consisting of only the Company's principal executive officer and principal financial officer) which enables management to be aware of all transactions. The Company has limited resources and as a result, a material weakness in financial reporting currently exists, because of our limited resources and personnel, including those described below.

- The Company lacks personnel with the experience to properly analyze and record complex transactions in accordance with GAAP.
- The Company has in insufficient quantity of dedicated resources and experienced personnel involved in reviewing and designing internal controls. As a result, a material misstatement of the interim and annual financial statements could occur and not be prevented or detected on a timely basis.
- The Company has not achieved the optimal level of segregation of duties relative to key financial reporting functions.
- The Company does not have an audit committee or an independent audit committee financial expert. While not being legally obligated to have an audit committee or independent audit committee financial expert, it is the management's view that to have an audit committee, comprised of independent board members, and an independent audit committee financial expert is an important entity-level control over the Company's financial statements.
- The Company has not achieved an optimal segregation of duties for executive officers of the Company.

A material weakness is a deficiency (within the meaning of the Public Company Accounting Oversight Board (PCAOB) auditing standard 5) or combination of deficiencies in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. Management has determined that a material weakness exists due to the items stated above, resulting from the Company's limited resources and personnel.

Changes in Internal Control over Financial Reporting

Except as described above, there has been no change in the Company's internal control over financial reporting identified in connection with the evaluation made by management required by paragraph (d) of Section 240.13a-15 or Section 240.15d-15 under the Exchange Act that occurred during the Company's fourth fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Auditor's Report on Internal Control over Financial Reporting

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual report.

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company currently has no open or pending legal proceedings. In addition management is unaware of any pending situations that could eventually lead to legal proceedings. All prior legal proceedings have been settled and the Company currently still has small liabilities outstanding with the total amounts due recorded as liabilities in the included financial statements.

ITEM 1A. RISK FACTORS

An investment in our Common Stock is highly speculative, involves a high degree of risk and should be considered only by those persons who are able to afford a loss of their entire investment. In evaluating our business, prospective investors should carefully consider the following risk factors in addition to the other information included in this Annual Report.

RISKS RELATED TO OUR BUSINESS DURING SLOW ECONOMIC ACTIVITY.

Our business environment including potential real estate projects are running at an extremely slow economic pace and may continue to do so for the foreseeable future. Our prospects must be considered within that framework and in light of the risks, expenses, delays, problems and difficulties frequently encountered in the re-establishment of a business. As such, we face risks and uncertainties relating to our ability to successfully implement our business plan.

WE HAVE AN ACCUMULATED DEFICIT AND MAY CONTINUE TO HAVE LOSSES IN THE FUTURE, WHICH COULD HAVE A NEGATIVE IMPACT ON OUR OPERATIONS.

Since inception, we have generated an accumulated deficit of \$14,191,198 as of September 30, 2012. We are increasing development, growth and acquisition activity which will result in increased expenses which could result in additional losses in the next 12 months. These losses could continue until such time, as we are able to generate sufficient revenues to finance our operations and the costs of continuing expansion. As of September 30, 2012, we had cash and cash equivalents of \$144,506.

OUR AUDITORS ISSUED A GOING CONCERN OPINION WHICH MEANS WE MAY NOT BE ABLE TO ACHIEVE OUR OBJECTIVES AND MAY HAVE TO SUSPEND OR CEASE OPERATIONS.

Our auditors issued a going concern opinion for the fiscal years ended December 30, 2011 and December 31, 2010. This means that there is substantial doubt that we can continue as an ongoing business without additional financing and/or generating profits. If we cannot raise additional capital or generate sufficient revenues to operate profitably, we may have to suspend or cease operations. If that occurs, you will lose your investment.

WE MAY NEED TO RAISE ADDITIONAL FUNDS IN THE FUTURE FOR OUR OPERATIONS AND IF WE ARE UNABLE TO SECURE SUCH FINANCING, WE MAY NOT BE ABLE TO SUPPORT OPERATIONS.

Future events, including the problems, delays, expenses and difficulties frequently encountered by growing companies, may lead to cost and expense increases that could make our revenues insufficient to support our operations and business plans. We may seek additional capital, including an offering of our equity securities, an offering of debt securities or obtaining financing through a bank or other entity. We have not established a limit as to the amount of debt we may incur nor have we adopted a ratio of our equity to a debt allowance. If we need to obtain additional financing, there is no assurance that financing will be available from any source, that it will be available on terms acceptable to us, or that any future offering of securities will be successful.

We may seek additional financing which may result in the issuance of additional shares of our common stock and/or rights to acquire additional shares of our common stock. The issuance of our common stock in connection with such financing may result in substantial dilution to the existing holders of our common stock who do not have anti-dilution rights. Those additional issuances of our common stock would result in a reduction of an existing holder's percentage interest in Broadleaf Capital Partners, Inc.. Our business, financial condition and results of operations could suffer adverse consequences if we are unable to obtain additional capital when needed.

OUR COMMON STOCK MAY BE AFFECTED BY LIMITED TRADING VOLUME AND MAY FLUCTUATE SIGNIFICANTLY.

There has been a limited public market for our common stock, and an active trading market for our common stock may not develop. As a result, this could reduce our shareholders' ability to sell our common stock in short time periods, or possibly at all. Our common stock has experienced, and is likely to experience in the future, significant price and volume fluctuations which could reduce the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially.

OUR COMMON STOCK IS DEEMED A "PENNY STOCK," WHICH MAY MAKE IT MORE DIFFICULT FOR INVESTORS TO RESELL THEIR SHARES DUE TO SUITABILITY REQUIREMENTS.

The Securities and Exchange Commission or SEC has adopted regulations which generally define "penny stock" to be an equity security that has a market price of less than \$5.00 per share, subject to specific exemptions. The market price of our common stock on the Bulletin Board has been substantially less than \$5.00 per share and therefore we are currently considered a "penny stock" according to SEC rules. This designation requires any broker-dealer selling these securities to disclose certain information concerning the transaction, obtain a written agreement from the purchaser and determine that the purchaser is reasonably suitable to purchase the securities. These rules limit the ability of broker-dealers to solicit purchases of our common stock and therefore reduce the liquidity of the public market for our shares.

NEVADA LAW AND OUR CERTIFICATE OF INCORPORATION MAY PROTECT OUR DIRECTORS FROM CERTAIN TYPES OF LAWSUITS WHICH COULD RESULT IN LIABILITY FOR INFE AND NEGATIVELY IMPACT OUR LIQUIDITY OR OPERATIONS.

Nevada law provides that our officers and directors will not be liable to us or our stockholders for monetary damages for all but certain types of conduct as officers and directors. Our Bylaws permit us broad indemnification powers to all persons against all damages incurred in connection with our business to the fullest extent provided or allowed by law. These exculpation provisions may have the effect of preventing stockholders from recovering damages against our officers and directors caused by their negligence, poor judgment or other circumstances. The indemnification provisions may require us to use our limited assets to defend our officers and directors against claims, including claims arising out of their negligence, poor judgment, or other circumstances.

SINCE WE HAVE NOT PAID ANY DIVIDENDS ON OUR COMMON STOCK AND DO NOT INTEND TO DO SO IN THE FORESEEABLE FUTURE, A PURCHASER OF OUR COMMON STOCK WILL ONLY REALIZE AN ECONOMIC GAIN ON HIS OR HER INVESTMENT FROM AN APPRECIATION, IF ANY, IN THE MARKET PRICE OF OUR COMMON STOCK.

We have never paid, and have no intentions in the foreseeable future to pay, any cash dividends on our common stock. Therefore an investor in our common stock, in all likelihood, will only realize a profit on his investment if the market price of our common stock increases in value.

IF WE FAIL TO MAINTAIN AN EFFECTIVE SYSTEM OF INTERNAL CONTROLS, WE MAY NOT BE ABLE TO ACCURATELY REPORT OUR FINANCIAL RESULTS. AS A RESULT, CURRENT AND POTENTIAL STOCKHOLDERS COULD LOSE CONFIDENCE IN OUR FINANCIAL REPORTING, WHICH COULD HARM OUR BUSINESS AND THE TRADING PRICE OF OUR COMMON STOCK.

We are subject to reporting obligations under the U.S. securities laws. The Securities and Exchange Commission as required by Section 404 of the Sarbanes-Oxley Act of 2002, adopted rules requiring every public company to include a management report on such company's internal controls over financial reporting in its annual report, which contains management's assessment of the effectiveness of the company's internal controls over financial reporting. In addition, an independent registered public accounting firm must attest to and report on management's assessment of the effectiveness of the company's internal controls over financial reporting. These requirements may first apply to our annual report on Form 10-KSB for the fiscal year ending December 31, 2002. Our management may conclude that our internal controls over financial reporting are not effective. Moreover, even if our management concludes that our internal controls over financial reporting are effective, our independent registered public accounting firm may still decline to attest to our management's assessment or may issue a report that is qualified if they are not satisfied with our controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us.

Our reporting obligations as a public company will place a significant strain on our management, operational and financial resources and systems for the foreseeable future. If we fail to timely achieve and maintain the adequacy of our internal controls, we may not be able to conclude that we have effective internal controls over financial reporting at a reasonable assurance level. Moreover, effective internal controls over financial reporting are necessary for us to produce reliable financial reports and are important to help prevent fraud. As a result, our failure to achieve and maintain effective internal controls over financial reporting could result in the loss of investor confidence in the reliability of our financial statements, which in turn could harm our business and negatively impact the trading price of our common stock. Furthermore, we anticipate that we will incur considerable costs and use significant management time and other resources in an effort to comply with Section 404 and other requirements of the Sarbanes-Oxley Act. As of the date of this prospectus we do not have an estimate of the costs to the company of compliance with the Act.

We are preparing for compliance with Section 404 by strengthening, assessing and testing our system of internal controls to provide the basis for our report. The process of strengthening our internal controls and complying with Section 404 is expensive and time consuming, and requires significant management attention. We cannot be certain that these measures will ensure that we will maintain adequate controls over our financial processes and reporting in the future. Furthermore, as we rapidly grow our business, our internal controls will become more complex and will require significantly more resources to ensure our internal controls overall remain effective. Failure to implement required new or improved controls, or difficulties encountered in their implementation, could harm our operating results or cause us to fail to meet our reporting obligations. If we or our auditors discover a material weakness, the disclosure of that fact, even if quickly remedied, could reduce the market's confidence in our financial statements and harm our stock price.

INVESTORS IN OUR SECURITIES MAY SUFFER DILUTION.

The issuance of shares of our common stock, or shares of our common stock underlying warrants, options or preferred stock will dilute the equity interest of existing stockholders who do not have anti-dilution rights and could have a significant adverse effect on the market price of our common stock. The sale of our common stock acquired at a discount could have a negative impact on the market price of our common stock and could increase the volatility in the market price of our common stock. We may seek additional financing which may result in the issuance of additional shares of our common stock and/or rights to acquire additional shares of our common stock. The issuance of our common stock in connection with such financing may result in substantial dilution to the existing holders of our common stock who do not have anti-dilution rights. Those additional issuances of our common stock would result in a reduction of an existing holder's percentage interest in Broadleaf Capital Partners, Inc.. Our business, financial condition and results of operations could suffer adverse consequences if we are unable to obtain additional capital when needed.

ITEM 2. RECENT SALES OF UNREGISTERED SECURITIES

The following is a description of unregistered securities sold by the Company from January 1, 2012 through September 30, 2012 including the date sold, the title of the securities, the amount sold, the identity of the person who purchased the securities, the price or other consideration paid for the securities, and the section of the Securities Act of 1933 under which the sale was exempt from registration as well as the factual basis for claiming such exemption.

- On March 2, 2012 we issued 1,500,000 shares of restricted common stock to Donna Steward, 4,500,000 shares of restricted common stock to J. Michael King, 1,000,000 shares of restricted common stock to John Dolkart for services performed. This issuance was intended to be exempt from the registration requirements pursuant to Section 4(2) of the Securities Act of 1933 and Rule 506 promulgated under Regulation D.
- On March 12, 2012 we issued 6,052,949 shares of common stock to Upton Development Corp in settlement in full of a judgment against the Company. This
 issuance was intended to be exempt from the registration requirements pursuant to Section 4(2) of the Securities Act of 1933 and Rule 506 promulgated under
 Regulation D.
- On March 12, 2012 we issued 5,000,000 shares of common stock to Steven R. Peacock, 6,000,000 shares of common stock to Virginia L. Roberts Trust, and 5,625,000 shares of restricted common stock to Donna Steward in settlement in full of interest accruing on notes from these individuals to the Company. This issuance was intended to be exempt from the registration requirements pursuant to Section 4(2) of the Securities Act of 1933 and Rule 506 promulgated under Regulation D.
- On April 4, 2012 we canceled 1,750,000 shares of restricted common stock to Frank M. Webb, 1,750,000 shares of restricted common stock to Canyon Investments, 1,750,000 shares of restricted common stock to Donna Steward, and 1,750,000 shares of restricted common stock to Charles Snipes, in order to comply with SEC regulations for stock previously issued for Directors fees.
- On July 5, 2012, 1,247,450 shares of common stock were returned to the Company treasury after it was concluded financing done through Angus Capital in 2004 was completed with no additional shares due and these shares were issued in error.

ITEM 6. EXHIBITS, REPORTS ON FORM 8-K AND FINANCIAL STATEMENT SCHEDULES

(a) Exhibits

Exhibits required to be attached by Item 601 of Regulation S-B are listed in the Index to Exhibits and are incorporated herein by this reference.

(b) Reports on Form 8-K.

The following reports on Form 8-K's were filed during the period covered during 2011 and 2012 including this reporting period on Form 10-QSB:

July 22, 2011 Item 4. Change in Registrants Certifying Accountant Item 8. Other Items Item 9. Financial Statements and Exhibits

PRINCIPAL EXECUTIVE OFFICER CERTIFICATION PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Michael King, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Broadleaf Capital Partners, Inc. (the "registrant");

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material factnecessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in allmaterial respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures(as defined in Exchange Act Rules 13a-15(e) and 15d-15(f) and 15d-15(f) and 15d-15(f) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under oursupervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusionsabout the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control overfinancial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant'sinternal control over financial reporting.

By: /s/ J. Michael King J. Michael King, Interim President/CFO Date: November 1, 2012

CERTIFICATION OF THE PRINCIPAL EXECUTIVE OFFICER PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002 (18 U.S.C. SECTION 1350)

Pursuant to 18 U.S.C. Section 1350, as created by Section 906 of the Sarbanes-Oxley Act of 2002, the undersigned Chief ExecutiveOfficer of Broadleaf Capital Partners, Inc. (the "Company") does hereby certify, to the best of such officer's knowledge, that:

1. The Quarterly Report on Form 10-Q of Broadleaf Capital Partners, Inc. (the Company) fully complies with the requirements of Section 13(a) or Section 15(d), as applicable, of the Securities Exchange Act of 1934, as amended; and

2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: November 1, 2012

/s/ J. Michael King J. Michael King, Interim President/CFO

The certifications set forth above are being furnished as an exhibit solely pursuant to Section 906 of the Sarbanes-Oxley Actof 2002, and shall not be deemed to be "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.

A signed original of this written statement required by Section 906, or other document authenticating, acknowledging orotherwise adopting the signature that appears in typed form within the electronic version of this written statement required by Section 906, has been provided to Broadleaf Capital Partners, Inc. and will be retained by Broadleaf Capital Partners, Inc. and furnished to the Securities and Exchange Commission or its staff upon request.
